Selected List of Correspondence Folders in OSI/MED "Subject File," 1943-56
(on deposit in CIA Records Center)

Note. Those parts of the OSI/MED "Subject File," 1943-56, which have so far been retired to the CIA Records Center are organized into the four accessions (or "jobs") by which they were retired in installments, and are so listed below, in order to facilitate reference to them at the Records Center. The correspondence and reports folders listed below (selected by me from the shelf lists that accompanied the records to retirement) are limited exclusively to the material that relates to the 1943-56 period of CIA's history, although some of the folders contain pre-1953 material as well. For 1943-52 material, the shelf lists should be consulted directly, either in OSI or in the Records Center.

Accession ("job") 56-224

This segment is limited to the period 1943-50, and contains about 2 linear feet of material. It is arranged in a decimal pattern, and was retired in Jan. 1956. For details, see shelflist (not cited here).

Accession ("job") 57-267

This segment covers the entire period 1943-56, about 8 linear feet, retired in February 1957. Likewise it is part of the main decimal file. The selection below is limited to the period 1943-56 (about half of the total, or an estimated 4 linear feet). Each item below is presumably a single folder, unless otherwise indicated. (Parenthetical comments and queries are mine.—M. P. C.)

AD/SI "Subject File," 1947-54:

List of Selected Correspondence and Reports Folders, 1953-54

(on deposit in CIA Records Center)

Note. All of this OSI central file, through the year 1953, and much of it for 1954, have by now been retired to the CIA Records Center. In volume these retired files total about 7 linear feet. The rest of the files for 1954 to 1956 remain on file in the office of the AD/SI, and apparently total about 5 linear feet. (See series no. 1 in the RM Staff's "records control schedule" for OSI, dated Dec. 1956, **SECRET**, summarized in Historical Staff memo dated 9 May 1957, **SECRET**.)

Selected below are those particular folders of correspondence, reports, and other documents that bear on the 1953-56 period of CIA's history. The folder titles are taken directly and literally from the shelf lists that accompanied the records when they were retired to the Records Center; in a few cases comments or queries have been added by me to point up historical relationships or historical values. The 1948-52 records are also accounted for, below, but only incidentally and in enough detail so that the Historical Staff can go back to them later if and as needed.

The folders below are organized under the four accessions (or "jobs") under which the records were progressively retired, rather than in logical or historical order. The "job" numbers are cited by number, because it will be necessary to cite them specifically by number whenever they are borrowed from the Records Center. Each item is a single folder unless otherwise indicated.

List of Folder Titles
(See pp. 2-4, below)

Distribution in OS working files, 1953-56:

Orig. -- "OSI" folder

OC. -- folders on Records Center; DB/I; and ORE

Cross-reference copies (p. 1 only) under DCI, DES, OSC, OCI, NSC, NSA (AFSA), IAC, RIB, Congress, AEC, Air Force, [redacted]
